PROFESSIONAL SUMMARY

Passionate junior programmer with over **3 years of experience** developing web applications and systems for healthcare, restaurant, and retail sectors. Skilled in **Angular, C++, TypeScript, and SQL Server** with a proven track record of delivering efficient and user-friendly solutions. Adept at working in fast-paced environments, solving complex problems, and collaborating with teams to meet project goals. Eager to contribute technical skills and dedication to a growing company in the U.S.

WORK EXPERIENCE

Hp Palacios, Huancayo - Full-Stack Developer

Dec 2022 - May 2023

- Developed responsive web views using **Angular**, improving UI consistency and enhancing the user experience.
- Designed and structured database tables in **SQL Server** to manage clinic data, ensuring optimal performance for high data loads.
- Created APIs in **C++** to automate appointment reminders for patients and doctors, reducing missed appointments by 30%.
- Collaborated with clients through **Figma** to design user interfaces that aligned with business requirements.

Sistec, Huancayo - Full-Stack Developer

May 2021 - Nov 2022

- Implemented business management systems using **Odoo**, streamlining administrative processes for restaurants and retail stores.
- Customized **WordPress** websites by modifying themes and plugins with **PHP, JavaScript, and QWeb**.
- Integrated **PostgreSQL** and **MySQL** databases to connect Odoo systems with WordPress sites for real-time data synchronization.

- Provided technical support and training to clients, improving their ability to manage digital platforms efficiently.

EDUCATION

Andres Avelino Caceres Dorregaray - Web Programmer

3-Year Program | Huancayo, Peru

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, Angular
- **Backend:** C++, PHP, Python, Spring Boot
- **Database:** SQL Server, PostgreSQL, MySQL
- **Tools & Platforms:** Figma, Odoo, WordPress, Git, Visual Studio Code

SOFT SKILLS

- Strong Problem-Solving Skills
- Team Collaboration & Leadership
- Effective Communication
- Adaptability & Fast Learner

PROJECTS

Clinic Management System

Developed a web-based clinic management system using **Angular**, **C++**, and **SQL Server** that automated appointment scheduling, patient notifications, and doctor availability management. Reduced administrative errors and improved clinic efficiency.

Café Colonial Website

Customized a WordPress theme for a local restaurant, improving design, functionality, and SEO performance to increase customer engagement.
